REMARKS

50X1-HUM

1. The Finsterwalde-Heinrichsruh (N 52/A 15) airfield was about 600x 1,000 meters and bordered on high forest to the east and west. The terrain of the field rises to the west. The landing field was serviceable on 6 October 1950. There were no installations, aircraft or soldiers at the field. A warning signboard reading "Do not enter the woods. Danger of life. Buergermeister" was in the southeastern corner of the field at the edge of the wood. *

* Comment. The status of the field has not changed To date, the field has occasionally been used by FO-2s which are presumably assigned to the bomber units stationed in Finsterwalde.
